

# South Side History BIKE TOUR

*“My favorite part was biking together through the city. Nothing compares to seeing the South Side’s different neighborhoods on that level!”*

**Explore** the social, cultural, and political history of Chicago’s South Side on this annual 15-mile bike tour led by College Dean John Boyer (History) and Professors Mark Hansen (Political Science) and Terry Clark (Sociology). Participants will visit and learn about ten sites of historical prominence across the South Side.

Note: Participants must provide their own bicycle and helmet. Divvy Bikes are not suitable for this event due to the distance between some of the stops.
